Developer Tools | Git, npm, Agile Methodology, Docker, VScode

PROJECTS

Music Producer's Website Revamp | East Bay Recorders

ReactJS | JavaScript | MaterialUI | styled-components

- Contributed to the redesign and development of a mobile-responsive website, meeting all client specifications and surpassing expectations.
- Enhanced user interface for albums page and integrated Spotify and Apple Music playlists for featured albums.

Tea Subscription Platform | Cup Of Peace

ReactTS | Vite(over cra) | Firebase SDK | Firebase-Admin | Firebase Cloud Functions | Stripe | MaterialUI

- Contributed to the successful front-end development of a serene and user-centric tea subscription platform, harmonizing the art of tea with modern technology.
- Engineered a versatile node CLI tool, streamlining order aggregation for fulfillment efficiency and enhancing customer satisfaction.

EXPERIENCE

Bitwise Industries | Oakland, CA

June 2021 - January 2023

Software Engineer / co-teacher

- Collaborated with cross-functional teams in agile environment, translating project requirements into technical solutions.
- Created and maintained high-priority features for a professional service scheduling app using React, TypeScript, and AntDesign.
- Implemented responsive user interfaces and front-end functionalities, delivering seamless user experiences across devices.
- Contributed to RESTful API creation using Django Rest Framework for server-side operations.
- Elevated client's scheduling department efficiency through bug fixes, QA testing, and technical solutions.
- Mentored and supported a cohort of 21 students, guiding them in HTML and CSS.

IKEA | Emeryville, CA

September 2008 - February 2021

Sales steer and supply specialist

- Strategized with management and cross-functional teams to present plans for product launches and inventory management.
- Analyzed product forecast reports, optimizing supply needs for 4 departments based on performance.
- Provided exceptional customer service to over 50 customers per week.

EDUCATION

Full Stack Software Engineering Bootcamp | UC Berkeley Extension

September 2020 - March 2021

- Gained expertise in full-stack development with a focus on front-end technologies.
